This the application for extension of time is unopposed, however, this Court still have discretion to extend or not. It is not automatic that where an application for extension of time is unopposed then the time must be extended. This Court shall have to look for good cause in order for the time to be condoned.

I have gone through the record, I agree that in the circumstances of this mater, extension of time is acceptable.

In the result, I do hereby grant the application and extend the time within 30 days from the date of this ruling. Costs will be in the course of the appeal.
